

Mopex Health & Safety Excellence

Build a Safer, Measurable, Audit-Ready Operation

Transform Health & Safety from reactive compliance into proactive operational control using maturity assessments, governance frameworks, dashboards, and scalable implementation tools.

Deliver a compliant, scalable, and auditable H&S Management System that protects people, meets legal obligations, and drives proactive safety culture.

The Business Problem

Common Challenges

- Reactive safety processes
- Poor visibility of risks
- Inconsistent site standards
- Weak audit trails
- Spreadsheet dependency
- Limited accountability
- Lack of maturity measurement

Health & Safety Maturity Assessment

Every Mopex project begins with a baseline to track ongoing, step-by-step improvements. It

starts with a 7-Dimension Diagnostic

for the H&S framework, which

produces a Maturity Score. This

score marks our “As-Is” starting

point and helps shape the roadmap

toward the “To-Be” state.

Level	Description
1. Initial	No formal H&S structure, reactive response
2. Emerging	Basic H&S elements in place, limited consistency
3. Defined	Documented processes, some proactive measures
4. Managed	Measured, governed, actively improved
5. Optimised	Embedded H&S culture, scalable systems

Mopex H&S Maturity Scoring Tool

Mopex H&S Project Delivery Flow

Mopex Frameworks break projects into clear, trackable phases, whether guided by a Mopex consultant collaborating with the client or handled directly by the client using their own Mopex H&S Framework package.

Typical Example:

1. Assessment
2. Gap Analysis
3. Governance Setup
4. Tool Deployment
5. Dashboard Integration
6. Continuous Improvement

Mopex H&S Project Tracking

H&S Project Tracking Documents are connected to a 'Client' Dashboard, giving up-to-date visibility into their H&S project. Check out the example video below to see the "active" dashboard in action.

Mopex H&S Toolkits Available

Mopex H&S toolkits, or “Suggested Assets,” are included in the H&S Framework contract and are commonly used for project consulting. There are also many other tools available for H&S Continuous Improvement, which can be bought individually or as part of the complete H&S Framework package.

Mopex Modular Templates

Branded, reusable templates and dashboards sold as standalone products or add-ons.

- **Modular & Scalable:** Use standalone or combine for full frameworks (LEAN, DMAIC, QMS, H&S, PMO, Data Analysis).
- **Audit-Ready & Branded:** Designed for compliance, client delivery, and executive presentation.
- **KPI-Driven:** Templates feed into dashboards that visualise performance, ROI, and risk.
- **Cross-Domain Utility:** Applicable across manufacturing, healthcare, logistics, finance, and more.

Mopex Analysis & System Dashboards

Summarise your headline KPI data
providing snapshot information of what
is important to the topic at hand.
