

## Mopex QMS Framework

Transform quality compliance into operational excellence.

Establish scalable quality systems that improve compliance, process consistency, audit readiness, and operational performance through practical governance frameworks, dashboards, and implementation tools.

Deliver a compliant, scalable, and auditable QMS aligned to ISO 9001 or sector-specific standards, enabling process control, risk mitigation, and performance improvement.

## The Business Problem

### Common Quality Challenges

- Inconsistent process adherence
- Weak document control
- Reactive quality management
- Repeat non-conformances
- Poor CAPA visibility
- Audit preparation issues
- Fragmented quality reporting
- Limited KPI ownership
- Spreadsheet dependency
- Lack of continuous improvement integration

# QMS Maturity Assessment

Every Mopex project begins with a baseline to track ongoing, step-by-step improvements. It

starts with a 7-Dimension Diagnostic

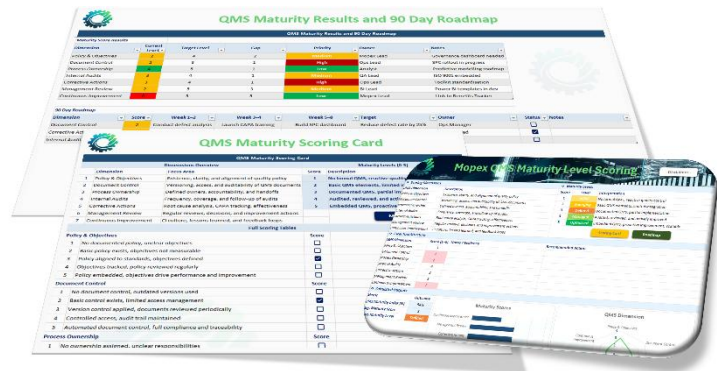

for the QMS framework, which

produces a Maturity Score. This

score marks our "As-Is" starting

point and helps shape the roadmap

toward the "To-Be" state.

Level	Description
1. Initial	No formal QMS, reactive quality control
2. Emerging	Basic QMS elements, limited integration
3. Defined	Documented QMS, partial implementation
4. Managed	Audited, reviewed, and actively improved
5. Optimised	Embedded QMS, proactive improvement, scalable

## Mopex QMS Maturity Scoring Tool

# Mopex QMS Delivery Framework

Mopex QMS Implementation Project Framework		
<b>Purpose:</b> Deliver a compliant, scalable, and auditable QMS aligned to ISO 9001 or sector-specific standards, enabling process control, risk mitigation, and performance improvement.		
Use Cases	Service Description	
ISO 9001 implementation	<ul style="list-style-type: none"> <li>Phase 1. Diagnostics and GAP Analysis</li> </ul>	
Supplier quality and audit readiness	<ul style="list-style-type: none"> <li>Phase 2. System Design</li> </ul>	
Internal QMS redesign or upgrade	<ul style="list-style-type: none"> <li>Phase 3. Implementation and Training</li> </ul>	
Integration with HBS, ESG, or operational frameworks	<ul style="list-style-type: none"> <li>Phase 4. Monitoring and Control</li> </ul>	
Quality maturity uplift across functions	<ul style="list-style-type: none"> <li>Phase 5. Certification and Continuous Improvement</li> </ul>	
<b>Mopex QMS Toolkit (Suggested Assets)</b>		
Asset	Format	Purpose
QMS Diagnostic Checklist	Excel	Assess current compliance status
SOP Template Pack	Word/Excel	Standardise documentation
Document Control Register	Excel/Notion	Track versions and access
Training Matrix & Tracker	Excel	Map and monitor competencies
KPI Dashboard	Excel/Power BI	Visualise quality performance
Audit Evidence Pack	Word/Excel	Prepare for certification
Management Review Slide Deck	PowerPoint	Present QMS performance and risks
Certification Checklist	Word/Excel	Validate readiness for audit

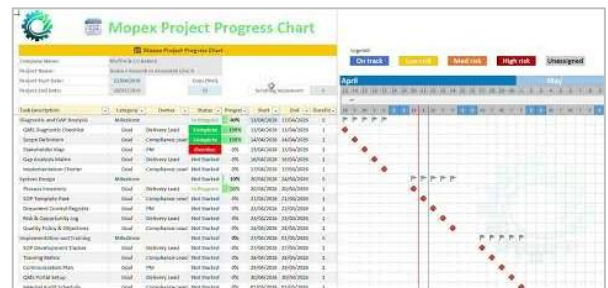

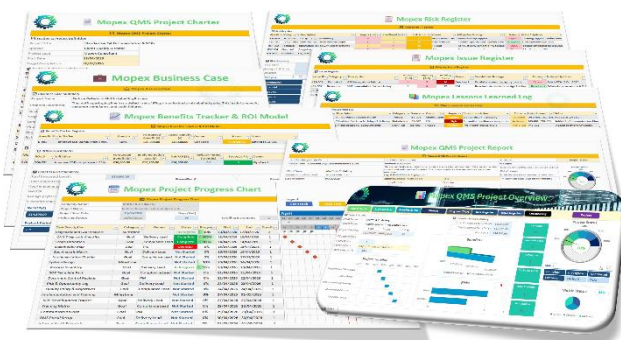

Mopex Frameworks break projects into clear, trackable phases, whether guided by a Mopex consultant collaborating with the client or handled directly by the client using their own Mopex QMS Framework package.

## Typical Delivery Flow

1. QMS Diagnostic
2. Gap Assessment
3. Governance Framework Setup
4. SOP & Documentation Structure
5. KPI & Dashboard Deployment
6. CAPA & Compliance Integration
7. Continuous Improvement Governance

## Mopex QMS Project Tracking

QMS Project Tracking Documents are connected to a 'Client' Dashboard, giving up-to-date visibility into their QMS project. Check out the example video below to see the "active" dashboard in action.

## Mopex QMS Toolkits Available

Mopex QMS toolkits, or “Suggested Assets,” are included in the QMS Framework contract and are commonly used for project consulting. There are also many other tools available for QMS Continuous Improvement, which can be bought individually or as part of the complete QMS Framework package.

## Mopex Modular Templates

Branded, reusable templates and dashboards sold as standalone products or add-ons.

- **Modular & Scalable:** Use standalone or combine for full frameworks (LEAN, DMAIC, QMS, H&S, PMO, Data Analysis).

- **Audit-Ready & Branded:** Designed for compliance, client delivery, and executive presentation.

- **KPI-Driven:** Templates feed into dashboards that visualise performance, ROI, and risk.

- **Cross-Domain Utility:** Applicable across manufacturing, healthcare, logistics, finance, and more.

## Mopex Analysis & System Dashboards

Summarise your headline KPI data  
providing snapshot information of what  
is important to the topic at hand.

Build your own or feel free to contact  
Mopex to discuss custom or bespoke  
requirements.
