

Mopex Modular Templates and Analysis Dashboards

Branded, reusable templates and dashboards sold as standalone products or add-ons.

- **Modular & Scalable:** Use standalone or combine for full frameworks (LEAN, DMAIC, QMS, H&S, PMO, Data Analysis).

- **Audit-Ready & Branded:** Designed for compliance, client delivery, and executive presentation.

- **KPI-Driven:** Templates feed into dashboards that visualise performance, ROI, and risk.

- **Cross-Domain Utility:** Applicable across manufacturing, healthcare, logistics, finance, and more.

From humble beginnings...

Mopex has developed a variety of templates for project use, simplifying them into familiar Excel worksheets. Organised in table format, they make editing easy and maintain a clean structure, which is essential for effective data modelling.

Category	Subcategory	Metric	Annual Cost (£)	Source	Notes
Prevention	Training	Operator training hours	4,000.00	All logs	Includes SOP refreshers
	SOP Development	Time spent on SOP creation	2,500.00	QA records	Linked to RCA and Control Plan
Appraisal	Inspection	QA labour cost	6,800.00	Timesheets	Visual checks + dashboard review
	Testing	Seal strength tests	1,200.00	Lab reports	Batch-level validation
Internal Failure	Rework	Labour + material	22,000.00	SIP	Label misalignment and sealing issues
	Scrap	Discarded units	9,500.00	Finance	Tracked via ERP and manual logs
External Failure	Returns	Customer complaints	3,200.00	CRM	Includes shipping and handling

Category	Total Cost (£)	% of Total	Priority	Notes
Prevention	6,500.00	14%	Medium	Opportunity to increase investment
Appraisal	8,000.00	20%	Medium	Balanced with prevention
Internal Failure	31,500.00	74%	High	Primary cost driver - target for reduction
External Failure	6,000.00	13%	Medium	Reputation risk - monitor closely

Our templates offer essential headline information to help you structure your reports. We also suggest KPIs and graphics to make your report more engaging and effective.

This could serve as your foundation to build on with other reports.

Headline Information and KPI's

Updating the original template with your current information, KPI graphics, and basic formatting creates an easy-to-read visual report.

A clean Excel layout with simple mini tables makes for datasets that are perfect for visual transformations in Power BI.

You can easily add your individual worksheets created from the templates into a workbook for a plug-and-play experience, linking them to automate data and create either static or live databases.

Add some creativity...

With Conditional Formatting, Pivot Tables and linked data, you can easily turn your once static spreadsheet into a dynamic dashboard.

From the ground up to a fully functional information system that can be shared across your organisation, you can create multiple tracking systems and easily use the same datasets for your Power BI needs.

Build a complete system

This video showcases what's possible when you combine our templates with your creativity. At Mopex Consulting, we use these same templates to document, measure, and manage all the frameworks we offer.

Mopex Analysis & System Dashboards

Summarise your headline KPI data providing snap shot information of what is important to the topic at hand.

Build your own or feel free to contact Mopex to discuss custom or bespoke requirements.

Using Mopex Beyond Off-the-Shelf Templates

Mopex modular templates and dashboards are designed to work at multiple levels — from individual practitioners and SMEs, through to consultants, consulting firms, and enterprise deployments.

Most users start with Mopex products off the shelf.

Many go further.

Start with Professional Membership — scale to Partner Licence

Consultants and Consultant Firms

Use Mopex as your delivery foundation, not just a template library.

Consultants and consulting teams use Mopex frameworks, dashboards, and systems to:

- Accelerate project delivery
- Standardise client outcomes
- Reduce time building internal tools
- Focus effort on insight, value, and change leadership

Mopex products are regularly used as part of:

- Operational Excellence programmes
- QMS and H&S implementations+
- PMO and transformation delivery
- Lean, DMAIC, and data-led improvement work

Enterprise and Regulated Organisations

Deploy Mopex as a ready-to-use system, or tailor it to your organisation.

Mopex modular frameworks can

be:

- Implemented directly
- Adapted to suit your operating model
- Extended with organisation-specific dashboards, registers, and governance layers

This allows teams to move beyond static templates and build a connected, auditable delivery system without starting from scratch.

White-Label and Client Branded Solutions

Some partners go further by offering Mopex-powered systems under their own branding, or client branding.

This enables consulting firms to:

- Create repeatable, productised offerings
- Deliver consistent systems across clients
- Retain full ownership of client relationships
- Scale delivery without rebuilding IP each time

White-label and partner licensing options are available for selected Mopex systems and frameworks.

A Flexible, Scalable Model

Mopex supports:

- Off-the-shelf use
- Consultant-led delivery
- Bespoke system development
- Licensed and white-label partnerships

All options are underpinned by clear licensing and commercial models, allowing organisations to engage at the level that suits them.

If you are interested in using Mopex beyond individual purchases — whether for consulting delivery, enterprise deployment, or branded solutions — we're happy to discuss the right approach.

Mopex is designed to scale with how you deliver change.
