

## Mopex DMAIC Framework

Deliver measurable improvement through structured problem solving.

Improve quality, efficiency, compliance, and operational performance using scalable DMAIC governance frameworks, dashboards, and deployment toolkits.

## The Business Problem

### Common Improvement Challenges

- Problems repeatedly return
- Root causes are unclear
- Improvements are poorly tracked
- Benefits are not quantified
- Teams rely on assumptions instead of data
- Projects lose momentum
- No standard improvement methodology
- Weak improvement governance
- Limited executive visibility

## DMAIC Maturity Assessment

Every Mopex project begins with a baseline to track ongoing, step-by-step improvements. It starts with a 7-Dimension Diagnostic for the DMAIC framework, which produces a Maturity Score. This score marks our “As-Is” starting point and helps shape the roadmap toward the “To-Be” state.

| Level        | Description                                       |
|--------------|---------------------------------------------------|
| 1. Initial   | No structured DMAIC use, reactive problem-solving |
| 2. Emerging  | Basic DMAIC awareness, inconsistent application   |
| 3. Defined   | DMAIC tools used, some repeatability              |
| 4. Managed   | Structured projects, measurable improvements      |
| 5. Optimised | Embedded DMAIC culture, scalable impact           |

## DMAIC Maturity Results and 90 Day Roadmap

### LEAN Maturity Results and 90 Day Roadmap

#### Maturity Score Results

| Dimension           | Current Level | Target Level | Gap | Priority | Owner      | Notes                       |
|---------------------|---------------|--------------|-----|----------|------------|-----------------------------|
| Problem Definition  | 1             | 4            | 3   | High     | Mopex Lead | Governance dashboard needed |
| Data Collection     | 1             | 4            | 3   | High     | Ops Lead   | SPC rollout in progress     |
| Root Cause Analysis | 1             | 4            | 3   | High     | Analyst    | Predictive modeling roadmap |
| Solution Design     | 1             | 3            | 2   | Low      | QA Lead    | ISO 9001 embedded           |
| Sustainment         | 1             | 3            | 2   | Medium   | Ops Lead   | Toolkit standardization     |
| Team Capability     | 1             | 4            | 3   | Medium   | HR Lead    | Power BI training in date   |
| Governance & ROI    | 1             | 3            | 2   | High     | Mopex Lead | Link to Benefits Tracker    |

#### 90 Day Roadmap

| Dimension           | Score | Week 3-4                | Week 5-6               | Week 7-8              | Target                       | Owner        | Status                              | Notes |
|---------------------|-------|-------------------------|------------------------|-----------------------|------------------------------|--------------|-------------------------------------|-------|
| Data Collection     | 1     | Conduct defect analysis | Launch CAPA training   | Build SPC dashboard   | Reduce defect rate by 25%    | Ops Manager  | <input type="checkbox"/>            |       |
| Root Cause Analysis | 1     | Audit current tools     | Train on dashboard use | Automate RFI tracking | Improve data accuracy by 30% | Digital Lead | <input checked="" type="checkbox"/> |       |
| Governance & ROI    | 1     | Review risk assessments | Launch safety training | Set up HSE 6S         | Reduce incident rate by 20%  |              | <input checked="" type="checkbox"/> |       |

## Mopex DMAIC Toolkits Available

Mopex DMAIC toolkits, or “Suggested Assets,” are included in the DMAIC Framework contract and are commonly used for project consulting.

There are also many other tools available for DMAIC Continuous Improvement, which can be bought individually or as part of the complete DMAIC Framework package.

## Mopex Modular Templates

Branded, reusable templates and dashboards sold as standalone products or add-ons.

- **Modular & Scalable:** Use standalone or combine for full frameworks (LEAN, DMAIC, QMS, H&S, PMO, Data Analysis).

- **Audit-Ready & Branded:** Designed for compliance, client delivery, and executive presentation.

- **KPI-Driven:** Templates feed into dashboards that visualise performance, ROI, and risk.

- **Cross-Domain Utility:** Applicable across manufacturing, healthcare, logistics, finance, and more.
